Work Authorization: German Citizen
aditprajapati-dot.github.io

Operations Manager with an engineering background and 7 years in operations, quality and process improvement across B2B marketplace, fleet operations and manufacturing. I rebuild broken processes, make performance visible with data, and automate repetitive work with practical AI tools. German citizen, based in Berlin, available immediately.

Experience

CNC24 GmbH Jul 2024 – Sep 2026
Operations Manager Berlin, Germany

- Owned the end-to-end B2B complaint management process during a company-wide restructuring (headcount reduced from 90+ to under 20).
- Built complaint tracking from scratch: registered all customer complaints, closed the resolved-but-open backlog, and created Salesforce KPI dashboards and reports for real-time monitoring.
- Redesigned decision-making so the team resolves complaints directly and escalates only urgent or high-value cases; took over credit-note issuing to speed up resolution.
- Reduced the complaint rate by 2.5 percentage points year over year and sustained an average customer satisfaction score of 8+/10 after resolution for a full year.
- Ran supplier feedback sessions on quality, delivery and complaint rates, sharing root-cause analysis and aligning resolution processes across sales, suppliers and operations.

CNC24 GmbH Oct 2023 – Jun 2024
Working Student Operations Berlin, Germany

- Supported feasibility study for the development of a 4PL (Fourth-Party Logistics) supply chain initiative, analyzing opportunities for process improvement.
- Assisted with order management in Salesforce, gaining hands-on experience with CRM workflows and operational processes.

Zoomo Germany GmbH Feb 2022 – Jun 2022
Fleet Operations Associate Berlin, Germany

- Led a team of 2 (senior mechanic and mechanic) during the setup of Zoomo's B2B e-bike leasing business in Berlin.
- Managed and optimized a fleet of 250+ e-bikes, overseeing maintenance and operational processes.
- Developed and implemented quality-control processes to ensure reliable fleet performance.
- Contributed to the design and setup of the warehouse layout and battery-charging infrastructure, improving space utilization and safety.

Career Break Jun 2018 – Jan 2022

- Relocation to Germany, full-time MSc Project Management and job search

Citizen Industries Limited Sep 2016 – May 2018
Quality Assurance Manager Gujarat, India

- Reduced production waste by 6% by introducing lean manufacturing practices with production and quality teams.
- Led the ISO 9001 recertification and put corrective actions in place to prevent repeat non-conformances.

Swelore Engineering Private Limited. Nov 2014 – Aug 2016
Junior Service Engineer Gujarat, India

- Managed client relationships, including responding to inquiries, addressing complaints, and maintaining a high level of customer satisfaction.
- Successfully installed, commissioned, and troubleshot chemical dosing pumps and packages onsite, providing technical support and training to clients.

Travel Tribe (Side Project) Mar 2023 – Present
Community Organiser & Founder Berlin, Germany

- Founded and run a Berlin hiking and outdoor travel community at weekends alongside full-time work, growing it to 1,700+ Meetup members.
- Planned and delivered 60+ events for 600+ participants, with a 4.9/5 average Meetup rating.
- Increased overall profit margin from 9.8% to 25% while maintaining stable booking volume.

Skills

- Salesforce CRM
- Operational Analytics
- KPI Dashboards
- Unit Economics
- Project Management
- Lean Principles
- Stakeholder Management
- Supplier Management
- Complaint Management
- AI & Automation
- Continuous Improvement
- Root-Cause Analysis

Projects

Travel Tribe Booking (B2C) Platform | yourtraveltribe.de (Oct 2026)

- Built and launched a live B2C travel booking platform with AI-assisted coding (Claude), hosted on Hostinger, replacing manual Meetup bookings with fully automated online booking.
- Defined requirements and the booking journey: trip listings, booking as a guest or with an account, direct payment on website through Stripe payment gateway, and automatic invoice emails and slot confirmation for every booking.

AI-Powered Invoice Generation System

- Replaced manual editing of Word invoice templates with a web app that creates finished PDF invoices, so a non-technical user handles routine invoices independently. Built with Claude AI and Hostinger.

Education

MSc. Data Analytics, Berlin School of Business and Innovation Feb 2023 – Aug 2024
Berlin, Germany

MSc. Project Management, Arden University Feb 2019 – Dec 2020
Berlin, Germany

B.Tech Mechanical Engineering, Rajasthan Technical University Jul 2010 – May 2013
Rajasthan, India
